

AMENDMENTS TO THE CLAIMS

This listing of the claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

Claims 1-22. (Canceled).

Claim 23. (Original): Phospholipids (LCPUFA-PL) including a long-chain polyunsaturated fatty acids (LCPUFA) as constituents,
wherein the LCPUFA-PL includes at least phosphatidylcholine and phosphatidylserine, and the LCPUFA includes at least arachidonic acid, and
wherein a proportion of arachidonic acid with respect to total fatty acids contained as constituents of total phosphatidylcholine is 40 percent by weight or greater, and a proportion of arachidonic acid with respect to total fatty acids contained as constituents of total phosphatidylserine is 20 percent by weight or greater.

Claim 24. (Original): The phospholipids as set forth in claim 23,
wherein the LCPUFA-PL includes phosphatidylcholine that at least includes dihomo- γ -linolenic acid as LCPUFA, and
wherein a proportion of dihomo- γ -linolenic acid with respect to total fatty acids contained as constituents of total phosphatidylcholine is 3 percent by weight or greater.

Claim 25. (Previously Presented): The phospholipids as set forth in claim 23,
wherein the LCPUFA-PL includes phosphatidylserine that at least includes dihomo- γ -linolenic acid as LCPUFA, and
wherein a proportion of dihomo- γ -linolenic acid with respect to total fatty acids contained as constituents of total phosphatidylserine is 1 percent by weight or greater.

Claims 26-30. (Canceled).

Claim 31. (Currently Amended): A lipid composition containing phospholipids of claim ~~[[15]]~~ 23.

Claim 32. (Currently Amended): The lipid composition as set forth in claim ~~[[29]]~~ 31, which is used as a nutritional composition.

Claim 33. (Currently Amended): The lipid composition as set forth in claim ~~[[29]]~~ 31, which is processed into a capsule or tablet.

Claim 34. (Currently Amended): Food containing the lipid composition of claim ~~[[29]]~~ 31.

Claim 35. (Original): The food as set forth in claim 34, which is an oil-in-water dispersion liquid in the form of a liposome formed by the phospholipids.

Claim 36. (Previously Presented): The food as set forth in claim 34, which is a nutriment.
